Drain Work In Dominguez

Completion of a \$593,919 Dominguez area storm drain project has been announced by County Supervisor Burton W. Chace.

The drain, which involved construction of nearly a mile of reinforced concrete pipe and conduit, was performed by the John S. Pehar Co. of South Gate.

The drain was routed in Avalon Boulevard from Victoria Street south to De' Amo Boulevard, Chace said. Included was a drain section running east in unimproved Del Amo Boulevard for a short distance to a previously built project.

Chace said storm waters will be conveyed from the Avalon Boulevard drain into Dominguez Channel.

The project was financed by the County Road Department and will be operated and maintained by the Flood Control District, Chace said.

Garden Checklist

1. Hedge plants set out now will give good growth during late spring and summer. Try wax leaf privet for a handsome hedge, high or low.
2. Pinch and prune fuchsias as they grow to shape them and to encourage side branching for added bloom.
3. A regular care program of feeding, watering and spraying will insure healthy roses, better blooms.
4. Set tomato plants out now for summer crops. Nurserymen offer varieties suited to local climates.
5. Feed tuberous begonias with liquid fish fertilizer—twice a month for potted plants, once a month for those in the ground.
